

Environmental Policy

DENZAI will work toward a sustainable society where both environmental protection and economic activity stand together by promoting the renewable energy business and trying to reduce the burden on the environment.

- 1** Follow environmental laws and regulations.
- 2** Promote resource saving, energy saving and low carbonization.
- 3** Promote renewable energy and contribute to a sustainable society.
- 4** Work with customers and the local community to enhance effectiveness.

Kohki Uemura

President & CEO, DENZAI K.K.
